WORK EXPERIENCE

Software Engineer, MDI NetworX, Pune (InsightPro)

Sep- 2024 – Present

Project: InsightPro

Team size: 25

Role: Angular Developer

Responsibilities

- Developed and maintained interactive user interfaces using Angular, TypeScript, HTML5, SCSS, jQuery, and Semantic UI.
- Implemented detailed claim view pages showing claim amounts, service dates, denial reasons and attached documents.
- Integrated RESTful APIs to fetch and display claims data. Also use state management with RxJS and Angular services.
- Designed and developed a file explorer tool used to help the clients browse and manage their stored claims using Angular to display claim data.
- Integrated RESTful APIs to perform CRUD operations on files and folders using Angular services and HttpClient.
- Enabled features like move, copy, paste, delete and rename for client files within the UI.

Angular Developer, CodeNGTech Solutions PVT LTD, Pune (Truemeds)

Apr 2023 – Sep 2024

- Developed and maintained Truemeds web applications using Angular framework.
- Implemented secure user login functionality using JWT authentication.
- Participated in code reviews and developed coupon code functionality for product discounts while following Agile Scrum practices.
- Contributed to the development of the Baby Care Products module, ensuring responsive UI.

CERTIFICATION
